JPKadelka

For more than 4000 years the Taiko Drum is a spiritual center point of the Japanese history & mythology. She is associated with power, life and inner strength.

„The Shambala Project“ is a new musical formation from Berlin, including the members of the Taiko-Ensemble "Shambala Daiko", playing classical Variations of Taiko Drumming as well as modern ones. Pure drumming performance in the classical part of this concert as well as a combination of Taiko Drums and modern Synthesizer in the modern part will bring you a world wide complete new musical spectrum, which helps to rediscover the rhythms of nature. Energy becomes audible...!

The Shambala Project are composer & Taiko-Teacher: Jens-Peter Kadelka
Drumming & management: Karsta Paeschke
Drumming & Tai-Chi-Teacher: Sabine Sobhani

as well as further actors from different training courses

Friday, 26.04.2013 at 20.00 Uhr (Entry at 19.30 Uhr)
